PA: Product and Presentation

The project's goal was to create a social network that could unite geeks across the world, with a particular focus on groups to allow people with common interests to come together.

A9: Product

Infra is an easy to use social network that connects people.

1. Installation

The tag can be found here.

The following command starts the Docker image:

```
docker run -it -p 8000:80 --name=lbaw2192 -e DB_DATABASE="lbaw2192" -e
DB_SCHEMA="lbaw2192" -e DB_USERNAME="lbaw2192" -e DB_PASSWORD="MruhkTY1"
git.fe.up.pt:5050/lbaw/lbaw2122/lbaw2192
```

2. Usage

The final product can be found at: http://lbaw2192.lbaw.fe.up.pt

2.1. Administration and Credentials

An administrator logs in the same way as a regular user. There are a few pages only available to admins:

- View and administer all users: http://lbaw2192.lbaw.fe.up.pt/users
- View and administer all groups: http://lbaw2192.lbaw.fe.up.pt/groups
- View and administer all posts: http://lbaw2192.lbaw.fe.up.pt/posts

Otherwise an admin enjoys increased permissions throughout the platform.

Email	Password		
lbaw2192@gmail.com	pass		

2.2. User Credentials

Туре	Email	Password
Moderator (http://lbaw2192.lbaw.fe.up.pt/groups/2)	t@t.t	pass
Regular User	d@d.d	pass

3. Application Help

For application help we have a FAQ page. It shows how to register an account and create a post.

4. Input Validation

Client Side

There are required fields in all forms presented to the user.

Server Side

When registering, logging in, and editing a user account certain fields are checked like the file type of the images, the age of the user and length of the password. When creating a new password we also check if the password field and the confirm password field are the same.

5. Check Accessibility and Usability

5.1. Accessibility

We scored 11/18. The PDF can be found here.

5.2. Usability

We scored 22/28. The PDF can be found here.

6. HTML & CSS Validation

6.1. HTML

The HTML validation report can be found here.

6.2. CSS

The CSS validation report can be found here.

7. Revisions to the Project

Since the requirements specification stage we have implemented features related to interactions between users, friend requests can now be sent and handled as can membership requests and invites. A user can now also see their notifications, a moderators on a group can also see the groups notifications. Furthermore the search features on the website have also been improved. The general user experience on the site has also been improved by the use of anchors to other pages on the site and pages that describe why a user can't access a resource.

8. Implementation Details

8.1. Libraries Used

We used **Bootstrap**.

8.2. User Stories

A10: Presentation

1. Product presentation

Infra is a social network with a focus on groups. A user can make posts on it, share other posts also comment on theirs and other user's posts and shares. A user can create groups and join other groups. Posts and comments can also be made specifically in a group. Users can also create friendships, a user will their friends' posts on their personal timeline (a user can only interact with a private user if they are their friend). User's may also interact with user content by liking and unliking it. A user will receive and be able to interact with notifications about various interactions (friend requests, likes on posts, etc.). Groups have moderators and there are also site-wide administrators capable of ensuring a good experience for all users on the platform. There are also powerful search capabilities on the site.
